

Northern Health BLACK PAGES

A HUME WHITTLESEA PRIMARY CARE PARTNERSHIP GRANT RECIPIENT

The Northern Health led **BlackPages** will bring together all these services in one easy to use app.

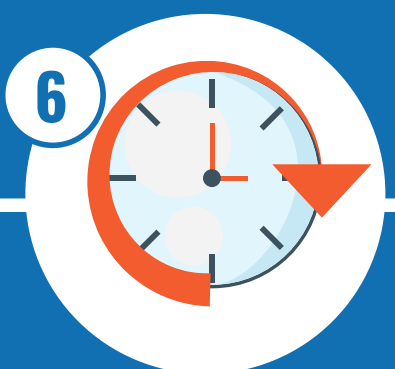

Knowing how and where to access local culturally safe health and support services can be difficult for the Aboriginal community.

The app will be designed by community for community to ensure its relevance.

The co-design approach to developing the App means lots of opportunities for feedback and continuous improvement.

The app will be ready to use by late 2019.

Services listed will cover health, community support, education, employment, justice and more!

We'll keep you updated on our progress and opportunities to contribute.
Sign-up to the HWPCP now!
