Guidelines for Making Referrals to Health Services

CBD Homelessness Health Access Protocol

1. Encourage the person who is experiencing homelessness to attend the health services they need by:

- a. identifying problems relating to attending appointments and working out ways to assist the person to attend;
- b. explain the service and how it works or get someone who can do this for you;
- c. talk through any expectations which may or may not be achieved;
- d. provide material aide to reduce barriers for attendance;
- e. seek consent to make the referral directly if the person cannot do this for themselves. (See section 6 of the Protocol); and
- f. ask how it went and be open to discussing any follow up appointments.

2. In making a referral to an agency:

- a. ask about any protocol for priority of access;
- b. see if it is possible for the person to attend without an appointment;
- c. discuss needs, including longer appointments, gender issues;
- d. seek out a support/contact person within the service to assist;
- e. define your role with the service; and
- f. provide information to reduce duplicated questioning.

3. In supporting someone's attendance to a health service:

- a. where appropriate, accompany or provide your contact details;
- b. follow up with service and/or person to ensure attendance;
- c. give feedback that will help the service to be more responsive to the needs of people experiencing homelessness; and
- d. attend /offer opportunities for workers to share practice.

4. To ensure that you can support people who experience homelessness to care about their health:

- a. care about everyone's health and promote good health as a normal part of the work you do;
- b. if some one looks to be in pain or unwell ask the person if you can help them get some assistance;
- c. learn about health issues related to homelessness; and
- d. know the health services that are available to people experiencing homelessness in the CBD of Melbourne and the services that can assist in finding the right service.

Please review the CBD Homelessness Health Access Protocol: Guide to Accessing Services for the operating days and times of the various services listed above. It also lists many other agencies that provide services to the homeless population in Melbourne's CBD.

This Protocol was developed in 2008 by Maureen Dawson-Smith, Live Work Relate, through the Moonee Valley Melbourne Primary Care Partnership Project, Homelessness and Primary Health Service Coordination in the Melbourne CBD, with the support of the CBD Project Working Group. This Project was funded by the City of Melbourne and the Department of Human Services (DHS), Primary Care Branch.
