

## SMPCP Family Violence Working Group – Standardised Data Set

Use this data set when developing your activity evaluation

The questions and rating scale below form the agreed standard data set to draw from when evaluating family violence prevention initiatives in the SMPCP catchment.

Activities targeting internal and external audiences can be included.

Select the most appropriate questions for inclusion in your event/activity evaluation survey.

Use this rating scale for all questions used.

**Not sure      Strongly disagree      Disagree      Neutral      Agree      Strongly Agree**

**(This question relates to improved understanding of family violence.)**

### **1. Has this activity helped you to understand more about the following?**

Why we should not accept violence against women.
The harms that can occur from stereotyping women and men.
The negative effects for women when men control decision-making.
Why it's important for women to be independent at home and at work.
How attitudes in male groups (friends, work colleagues) can encourage disrespect towards women.

(This question relates to drivers of family violence.)

**2. Inequality between men and women is linked to family violence.**

**Has this activity helped you understand how the following add to this link?**

Pardoning or excusing violence against women.
Stereotypes of how women and men should be and behave.
Men's control of decision-making.
Limits on women's independence in public or in private.
Attitudes within male groups (friends, work colleagues) that don't respect women.

(This activity relates to awareness of help options.)

**3. This activity has raised my awareness of where to get help if I need it.**

# SMPCP Family Violence Working Group – Standardised Data Collection Tally Sheet

1. Name of activity: \_\_\_\_\_
2. Date activity took place: \_\_\_\_\_ 3. Was the event internal / external? (Please circle) \_\_\_\_\_
4. LGA in which activity took place: \_\_\_\_\_ 5. SMPCP partner leading this activity \_\_\_\_\_

6. Gender

Female	Male	Prefer not to say	Other

7. Were you able to use some of the standardised questions for your event? (Please circle) **yes / no**

Comment:
