

# Grow Together

Seedling kit

Your 'Grow Together' kit contains:

1 x bag of premium potting mix

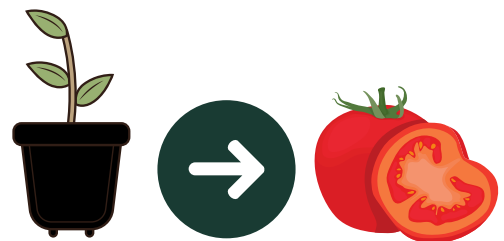

1 x planter bag

1 x organic liquid fertiliser (Seasol)

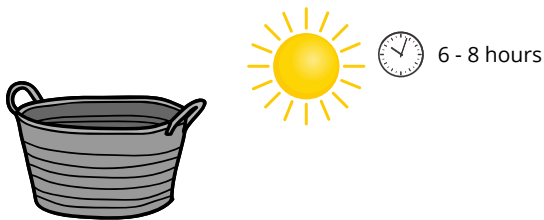

Cucumber seedling

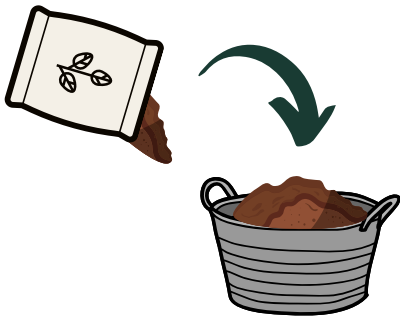

Tomato seedling

### How to set up your planter kit:

1. Find a sunny spot outside to set up your planter kit. Your plants need 6-8 hours of sunlight each day.

2. Open the bag of potting mix and pour it into the planter bag.

3. Take your seedlings out of their containers.

### How to set up your planter kit:

4. Put the seedlings into the soil. Make sure there is space between each plant, and that they are not too close to the edge of the bag.

5. Mix 27ml of fertiliser (Seasol) with 3 litres of water into a watering can or jug.

## How to look after your planter kit:

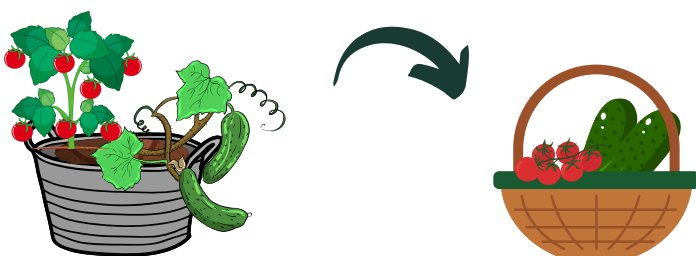

7. Water your seedlings every day for three weeks. After 3 weeks, you can water them every second day.

8. Water your seedlings with the fertiliser mixture every 2 weeks.

9. Your seedlings will be ready to harvest in 8 - 12 weeks.

### Other information:

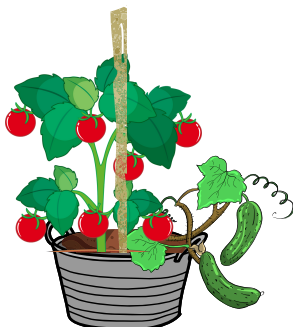

- Be careful when touching potting mix. Wear a mask and gloves if you have them, and wash your hands with soap and water after setting up your planter kit.

- Store your fertiliser away from children, and in a cool, dark place. Wash your hands after use.

- When your seedlings grow bigger, they might need support to stay upright. You can use tall sticks, bamboo, stakes or trellis to support them.
